

eco-friendly XtraLife® ClearVue™ binders

- Biodegrades Safely** – Polyolefin cover is more environmentally friendly than polyvinyl chloride (PVC).
- High Recycled Content** – Each contains a minimum of 50% post-consumer recycled content.
- Renewable/Reusable** – Non-stick cover won't stain from ink transfer and is so strong, it's guaranteed for one year not to split or tear even in extreme temperatures. So you'll be able to reuse XtraLife binders again and again.
- Conservative Footprint** – Slant-D® shape rings hold at least 25% more than round rings, so you can use a smaller size binder to save shelf space. Cushy GelTab triggers make rings comfortable to operate.
